# Burpee's Sweet Peas for 1917

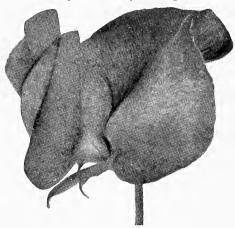

W. Atlee Burpee & Co., Seed Growers
Philadelphia

## New Spencer Sweet Pea, Fiery Cross

It should have a prominent place in all lists of Sweet Peas

As the trade knows, we were the first American Seedsmen to realize the great possibilities of the Sweet Pea. As far back as 1887 we began to specialize with this beautiful flower, and now are just as keenly working toward still further advancement.

A Single Flower of FIERY CROSS

FIERY Cross is a most appropriate name for a most unusual novelty. During the seventeenth and eighteenth centuries, when Scotland was continually at war, the method employed by the chiefs to gather the clans to repel invaders was by means of a fiery cross, which was taken from hamlet to hamlet by the speediest man available. The fiery cross was simply a blazing pine

FIERY Cross has all the appearance of live fire, the color being a scorching firered, or scarlet, without any shading, and which scintillates and glitters in bright sunlight, thus adding a glowing, fire-like sheen which radiates over the flower. Unlike most of the orange-scarlet varieties, it does not scorch or burn, even during extended periods of intense sunshine, therefore it can be grown in all soils without shading. The beautifully waved and fluted flowers are borne freely in threes and fours, well placed on long stout stems.

Fiery Cross was recommended for the Silver Medal variety of National Sweet Pea Society of England, July, 1914, which was awarded July, 1915. It received an Award of Merit at the exhibition held by the American Sweet Pea Society at the San Francisco Fair, June 10, 1915, as being the outstanding variety in the Show. Also the Gold Medal of the Panama Pacific Exposition. Also Certificate of Merit at the Sweet Pea Exhibition of the Pennsylvania Horticultural Society, June 23, 1915; and Silver Medal at the Seventh Annual Exhibition of the American Sweet Pea Society, Newport, R. I., July 15, 1915.

#### Prices for Fiery Cross Sweet Pea

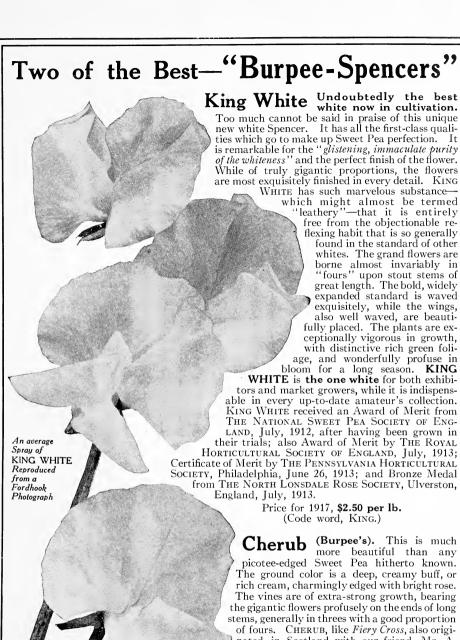

In sealed packets containing ten seeds each: Pkt. 10 cts.; 65 cts. per dozen; \$5.00 per hundred; 500 packets or more at \$4.25 per hundred. (Code word, FIERY.) Packets of 30 seeds 25 cts.; \$2.00 per dozen; \$13.75 per hundred; 500 packets or more at \$12.50 per hundred. (Code word, Cross.)

If 500 or more packets are ordered at one time, and it is so requested, we shall print on the packets the name and address of the purchaser and supply free an electrotype of either the spray or a single flower.

This charming novelty is acknowledged by leading experts Margaret Atlee This charming novelty is acknowledged by leading experts of America and England to be the best cream-pink yet obtained. It is practically a new shade of pink. The lovely flowers, uniformly of most

advanced Spencer type, are a rich glowing pink on cream ground, softly suffused with salmon in the standard, while the wings are a pleasing shade of pinkish rose and salmon. There is a distinct blotch of buff-primrose at base of both standard and wings which is particularly effective, giving a light, bright appearance to the entire flower. The flowers are of extraordinary size, often measuring two and one-half inches across the standard, exquisitely waved, and freely produced in "fours" on long stout stems. So vigorous is the growth that the vines give many duplex or double blooms. We were awarded Certificate of Merit for Margaret Atlee by the American Sweet Pea Society, June 29, 1911, but were unable to offer the seed until 1914. MARGARET ATLEE was awarded a Silver Medal by the National Sweet Pea Society of Great Britain, at the Show in London, July, 1914. Lb. \$2.50. (Code word, Margaret.)

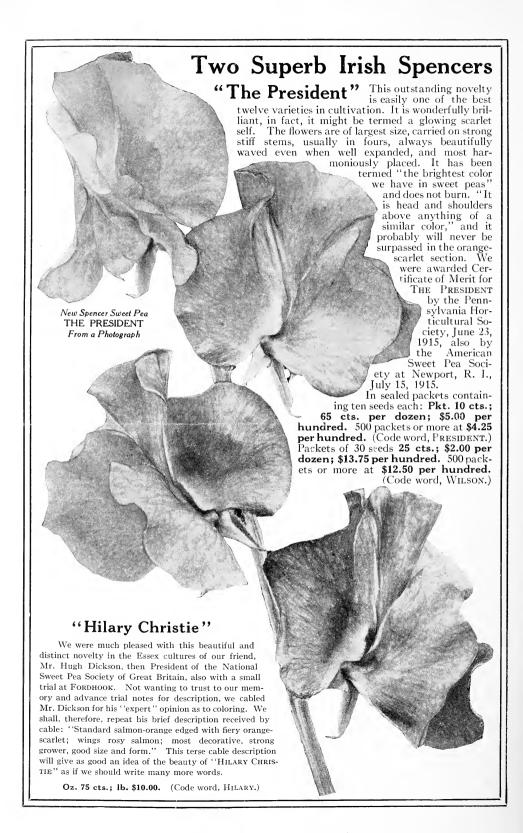

more beautiful than any picotee-edged Sweet Pea hitherto known. The ground color is a deep, creamy buff, or rich cream, charmingly edged with bright rose. The vines are of extra-strong growth, bearing the gigantic flowers profusely on the ends of long stems, generally in threes with a good proportion of fours. CHERUB, like Fiery Cross, also originated in Scotland with our friend, Mr. A. Malcolm, who wrote, July 7, 1915: "I gave a sigh of relief when I read you were sending CHERUB out. Visitors here always note it and it will be most popular. It was inquired about perhaps more than any other. The name suggested

itself to me one day, being so fresh and healthy and just like the cheeks of a beautiful country child-a soft groundwork of flesh pink on cream lit up on the edge by a particularly bright picotee-edge of red. The reverse view some say is richer and finer than the front view.

Awarded Certificates of Merit from The American Sweet Pea Society, July 15, 1915, and The Pennsylvania Horticultural Society, June 23, 1915.

Oz. \$1.00; lb. \$10.00. (Code word, CHERUB.)

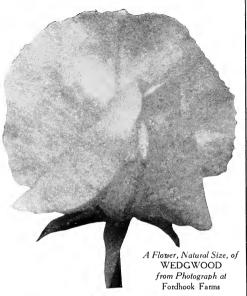

## Wedgwood

The Best Blue Spencer

Wedgwood is a unique shade of lovely light blue and completely eclipses such varieties as Flora Norton Spencer, Princess Mary, Southcote Blue, and Zephyr. The flowers are well waved in both standard and wings and are borne almost uniformly in sprays of four upon long, stout stems. Wedgwood is a color long sought for in Sweet Peas and has been eagerly welcomed by lovers of this beautiful annual. Awarded Certificate of Merit by the Pennsylvania Horticultural Society.

Wedgwood is a true self, being a most beautiful Wedgwood blue throughout the entire flower. It is entirely free from the harsh purple shading found in *Flora Norton Spencer* and others of that type; at the same time the flower of Wedgwood is much larger.

Lb. \$3.00. (Code word, Wedgwood.)

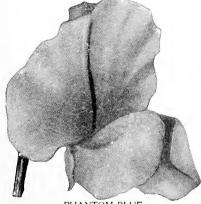

# Phantom Blue (Burpee's)

This is an outstanding pea of remarkable beauty. We have called it "Phantom Blue" from its unusual color, which is an opalescent blue marvelously blended with a tinge of delicate purple, giving the entire flower a delightful pastel, or "art" shade of blue. The rich tone of blue is unmistakable—yet at times it appears most elusive. The flowers are well placed, almost invariably in fours on long, stiff stems. The rich tone of blue comes up beautifully in water, while the vigorous plants in full bloom seem like a sheet of iridescent blue.

"A beautiful Tint of Blue."—Hugh Dickson.

"A beautiful Tint of Blue."—HUGH DICKSON.
"A prince of superlative degree."—A. MALCOLM.
Oz. \$1.60; lb. \$15.00. (Code word, Phantom.)

PHANTOM BLUE

# Selected Floradale Strain of Countess Spencer

Countess Spencer is the original parent from which the entire Spencer type has sprung. A soft rose-pink, which deepens at the outer edges and becomes still richer or more heavily suffused in cool weather. On our FLORADALE FARM, "The California Home of Sweet Peas," we have been carefully selecting and reselecting this famous Spencer and we believe we have a strain that is unsurpassed. In fact, it might be called Burpee's Improved Countess because of its very greatly improved character. Floradale Selected Strain of Countess Spencer comes true from seed.

Lb. \$1.50; 100 lbs. \$140.00. (Code word, SLASHED.)

# New Early-Flowering Spencers

What a Commercial of Thinks of Yarra

After seven years of patient work at FORDHOOK FARMS, supplemented by careful trials at our FLORADALE FARM, it is our pleasure to offer to Commercial Growers Burpee's New Early- or Winter-Flowering Spencers, which we feel sure will give entire satisfaction.

The House of Burpee has long been recognized as "American Headquarters for Sweet Peas," and our introduction of these Winter-Flowering Spencers marks an era in commercial Sweet Peagrowing

We were one of the first seedsmen to recognize the exceptional merit of "Yarrawa" as a winter forcing variety, and now the value of Winter-Flowering Spencers is fully realized, while in addition to their desirability for forcing under glass, they will be found extremely profitable for outdoor cultivation, particularly in such sections as are almost free from frost.

When sown outdoors, they come into bloom much earlier than the Summer-Flowering Spencers, and continue blooming throughout a very long season, lasting almost, if not quite, as long as the summerflowering type.

All stocks are grown at Floradale Farm, "The California Home of Sweet Peas."

#### Fordhook Rose

This fine early-flowering Spencer was introduced by us during the fall of 1915, and is the result of a cross made at our Fordhook Farms in 1910. This lovely variety is a charming shade of rosy-carmine. The flowers are of largest size and usually borne in threes and fours on long stiff stems. Awarded Certificates of Merit at the International Show, New York, March 20, 1915, and at the Spring Show of the Pennsylvania Horticultural Society, Philadelphia, March 23, 1915. Prices: Oz. \$1.25; lb. \$12.50. (Code word, SLIPPER.)

#### Yarrawa

We first exhibited this novelty at the great International Flower Show in New York, March, 1914, where we were awarded a Certificate of Merit by the American Sweet Pea Society. The Pennsylvania Horticultural Society also awarded us a Certificate of Merit in Philadelphia, March, 1915. It is a direct sport from a Summer-Flowering Spencer, retaining the heavy foliage and strong growth. When grown under glass it attains a height of ten to twelve feet, flowering continuously for several months.

From seed sown in early October at Fordhook Farms the plants came into bloom December 20, and bloomed profusely until May. The flowers are exquisitely waved, and when well grown average two and one-half inches in diameter; many of them are duplex or double. They are usually produced in fours on extra-long strong stems. The color is a bright of

them are duplex or double. They are usually produced in fours on extra-long, strong stems. The color is a bright rose-pink with a clear, creamy base the slightly lighter in tone. Oz. 75 cts.; lb. \$7.50. (Code word, YARRAWA.)

# New Early-Flowering Spencers

After seven years of patient work at FORIGIOOK PARMS, supplemented by careful trials at our brokviour. Evra, it is not pleasure to offer to Commercial Grovers Burpee's New Early- or Winter-Flowering Spencers, which we feel some will give entire satisfaction.

The House of Burpee has long been recognized as "American Headquanters for Sweet Peas," and on introduction of these Winter-Flowering Spencers marks an era in commercial Sweet Peagnowing.

We were one of the first seedsmen to recognize the exceptional merit of "Yarrawa" as a winter loreing variety, and now the value of Winters Elowering Spancers is fully realized, while in addition to their desirability for bacing under glass, they will be found extremely profitable for outdoor cultivation, particularly in such sections as are almost free from frost.

When sown outdoors, they come into bloom much earlier than the Summer-Flowering Spencers, and continue blooming throughout a very long season, lasting almost, if not quite, as long as the summer-(lowering type.

All stocks are grown at Propagatic FARM, "The California Home of Sweet Pers."

## Fordhook Rose

This fine early-flowering Spemer was introduced by as during the tall of 1915, and is the result of a cross made at our Formation Farms in 1910. This lovely variety is a charming shade of rosy-carming. The flowers are of largest size and usually borne in threes and from some long stiff stems. Awarded Certificates of Mericat the International Show, New York, March 20, 1915, and at the Spring Show of the Pennsylvania florticultural Society, Philadelphia, March 23, 1915 Prices: Oz. \$1.25; Ib. \$12.50. (Code word, Statents,)

## Yarrawa

We first exhibited this novelty at the great International Flower Show in New York, March, 1914, where we were awarded a Certificate of Merit by the American Sweet Pea Society. The Penusylvania Horticultural Society also awarded us a Certificate of Merit in Philadelphia, March, 1945. It is a direct sport from a Summer-Flowering Spencer, retaining the heavy tolkage and strong growth. When grown under glass it attains a bright of ten to twelve feet, flowering continuously for several months.

From seed sown in early October at Fortunos Exrus the plants came into bloom December 20, and bloomed profusely until May. The flowers are exquisitely waved, and when well grown average two and one-half inches in diameter; many of them are duples or double. They are usually produced in fours are extended.

What a Commercial Grower Thinks of Yarrawa

F. M. HANSEN, Florist, Proria, Illituois, July 5, 1916, writes:
"Among the Winner-Idooming Speimer Sweet Peas
which we had under
culture for entring
last winter 'the lost
of the best' was
your 'Yarrawa.'
Never have we seen
anything so perfect."
